**Plan ahead to ensure your installation is a great success! Check the latest information on these products and have the following items available prior to installation.**

- **Firmware:** Check the Sharp-PC Service site to make sure the machine and accessories have the latest firmware prior to installation at the customer site.
- **Power Source:** Verify the power source at the customer site: MX-303W/C304W requires 120 V AC @ 60 HZ with a 12 A receptacle outlet and circuit breaker.
- **Product Keys:** Obtain application codes for any accessories that may require a product key prior to arrival at the customer site.
- **Supplies:** Verify that the customer has enough supplies on hand. Starter toner included.
